

We are delighted to invite you to the 3rd annual
POWER London 2017 programme

THE VOLATILITY FACTOR

CAREER STRATEGIES FOR UNPRECEDENTED TIMES

3-4 May 2017

In the past year, we have witnessed dramatic changes to both the global and local landscapes. As our institutions attempt to anticipate and grapple with the resulting disruption, individuals face the challenge of knowing how to respond at a personal level.

This year's programme includes an exploration of resilience and asks - What part will disruptive technologies and innovation play for organisations navigating these unique times? How can resilience help with handling uncertainty and strengthening our career management skills?

Join us at POWER London for an engaging exchange of ideas and practical learning. POWER begins with an economic roundtable open exclusively to POWER global sponsors, followed by our flagship half-day programme for corporate and civic leaders.

Also included is an update featuring Lloyd's and AT&T on the continued importance of D&I and the opportunities it offers those organisations committed to genuine progress.

Sincerely,

Deirdre Joy Smith
